DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. Claim 21, claims a "medium for storing instructions to cause a processor to: meter a first fluid using an acoustic volume transducer; convert the first fluid to an aerosol..." when in fact it is not the processor that is performing these specific method steps or instructions. The steps or instructions of metering a first fluid using an acoustic volume transducer, converting the first fluid to an aerosol; calculating a volume of the aerosol; and metering a second fluid using an acoustic volume transducer, the metering based on the received signal is not carried out by the processor as claimed. It is through the interactions of several apparatus parts such as the microphone, atomizer, and aerosol volume sensor in which these instructions or method steps are carried out. Therefore the claim is deemed indefinite because of the omission of these essential elements.

Allowable Subject Matter

Claims 1-7, 9, 10, 15, and 19 are allowed.
